

How NOT to be a

CYBERBULLY

Treat others with respect and dignity

Interact and engage online in thoughtful, constructive ways

Disagree and debate free of name-calling, insults, and personal threats

Appreciate views that are different than your own, and give space for all perspectives to be shared

Stand up against abusive or cruel online behavior and offer support to targeted individuals if it is safe to do. Report offenders to the proper authorities

Seek out and adopt healthy online practices, like pausing before responding to a message, email, or post
